

D-Secure +

Overview

D-Secure+ is a desktop diamond verification instrument for mounted and loose stones, designed to separate synthetic diamonds from diamonds. D-Secure+ is manually operated but gives an automatic test result.

D-Secure+ makes a measurement and displays one of the following results:

- i) Diamond
- ii) Synthetic diamond
- iii) Check with fluorescent light
- iv) Clean and recheck

In case of query, D-Secure+ software has a troubleshoot option that connects the user with the DRC Techno Support team.
